

Jinze Wu

Educations

- 2025- **Doctor**, *UFR de Mathématiques d'Université Paris-Cité*, Paris, France
Advisor: Philip Boalch
- 2023-2024 **Master**, *UFR de Mathématiques d'Université Paris-Cité*, Paris, France
Advisor: Philip Boalch
- 2021-2023 **Master**, *Laboratoire de Mathématiques d'Orsay-Université Paris-Saclay*, Orsay, France
Advisor: Olivier Schiffmann
- 2017-2021 **Bachelor**, *School of Mathematical Sciences of Peking University*, Beijing, China
GPA: 3.75/4.00

Honor

- 2017 Gold Medal, 58th International Mathematical Olympiad (IMO)
- 2017-2021 Mingde Scholarship
- 2021-2023 Sophie Germain Master Scholarships

Academic Experiences

- 2024-2025 Invited long-term visit, visit to Peking University
- Summer 2019 "Algebra and Number Theory" Summer School, Chinese Academy of Sciences
- 2020/2021 Algebraic Geometry Summer School, Shanghai Center for Mathematical Sciences
- Jul 2024 Summer School of Poisson Geometry & Mathematical Physics, University of Napoli Federico II
- Aug 2024 Workshop on Hodge Theory 2024, University of Science and Technology of China
- Sep 2024 Ramification in geometric Langlands and non-abelian Hodge theory, Universität Heidelberg
- Jun 2025 Summer School on "Enumerative Geometry and Geometric Representation Theory", Università di Pisa
- Aug 2025 2025 Summer School on Hodge modules and D-modules, Tongji University
- Sep 2025 Workshop on Algebraic Geometry and Complex Geometry, Wuhan University

20-36 Allee Eric Chabeur – Paris – France

☎ +33-0669313752 • ✉ jinzewu2017@pku.edu.cn

Jan 2026 Workshop on Integral Stokes Structures and Applications, Mannheim University

Interested research areas

Wild character varieties, Stokes phenomena, quiver varieties, and related topics.

Expository writings

- 2020 Survey on Quasi-Fuchsian Group (*final project for a course "Introduction to Hyperbolic Geometry", lectured by Yi Liu*)
- 2021 Report on Moduli of Curves (*undergraduate thesis, directed by Yin Qizheng*)
- 2022 Report on Elliptic Hall Algebra (*M1 stage thesis, directed by Olivier Schiffmann*)
- 2023 Construct Quantizations using Elliptic Hall Algebra (*M2 stage thesis, directed by Olivier Schiffmann*)
- 2024 Graphical Deligne-Simpson problem (*M2 stage thesis, directed by Philip Boalch*)
